

Charnwood has been designing and manufacturing stoves for over 40 years, and its iconic 'Tor' offers a sustainable and chic way to heat your home. Three curved glass panels provide a view of the fire, while an advanced combustion system ensures clean burning and outstanding efficiency. Made in Britain from cast iron, plate steel and ceramic glass, the stove is Defra-exempted – allowing it to burn wood in smoke-control areas – so ideal for city life. Prices from £3,384.
